FLY360 India, formerly known as Ashok Designer Kites is a universally famous kite designer brand, which specializes in designing and flying different sorts of kites which go from miniature kites of 1.5 inch to enormous kites measuring in 100-200 feet.

Our founder Mr. Ashok Shah a prestigious kite designer and flyer, holding world records, voyaging extensively with his group of creative kite flyers and designers from over the India and winning various accolades. We have been taking a dynamic part in numerous kite festivals in India and abroad and have made a gigantic mark in the kite making and flying industry around the globe.

We are a group of passionate Indian kitists, who cherish taking off in the sky with our magnificently custom made designer kites. We have been designing and flying creative kites since the year 1996 and have been persistently endeavoring hard to enhance the experience of kite flying in India through indigenous and exotic kite designs. Our founders have supported their genuine romance for the aerial sport by designing and flying imaginative kites of majestic sizes and shapes with astonishing planes over decades, which have made the people go WOW after seeing the kite making the sky dance to their tunes with our stunt kites.

We have enriched and embraced many events such as marriages, parties, inaugurals etc with our creative designer and personalized kites, creating joyous and memorable moments with a perfect ambiance. Our custom made designer kites have always given a unique and heartwarming touch to all the events be it commercial or special parties.

Our vision is to rejuvenate the culture of kite flying in India more and be the leading platform for flying and making creative kites for various purposes like kite festivals, marketing brands, special recognition, product launches etc in the sky. We aim at leaving a creative dent in the minds of viewers and also adding a unique and sagacious touch to the events and special days.
